Verification of Ruminant Animals Intended for Slaughter as "ORGANIC"

Send this form with each load of animals to ensure that the organic status of animals is clearly communicated to buyers, brokers, or auction yards. Retain a copy of the completed form and provided a copy to the buyer, broker or auction yard to accompany each animal.

Operation Name (source): _____

Destination/Buyer/Broker: _____

Delivery Date of Animals: _____

List each ear tag number(s) of each delivered animal below. If the place of delivery assigns its own tracking number to each animal, such as a back tag number, you must also document the number assigned as "alternate ID" below.

- 1) The following animals in the delivery **DO qualify as organic** slaughter stock, as they have been A) organic from the last third of gestation and B) never treated with synthetic parasiticides:

Ear tag #	Alternate ID	Ear tag #	Alternate ID	Ear tag #	Alternate ID	Ear tag #	Alternate ID

- 2) The following animals in the delivery **DO NOT qualify as organic** slaughter stock, as they have been transitioned to organic, treated with synthetic parasiticides, and/or treated with any other non-allowed material:

Ear tag #	Alternate ID	Ear tag #	Alternate ID	Ear tag #	Alternate ID	Ear tag #	Alternate ID

I attest that the animals described in #1 above as organic slaughter stock meet all requirements for USDA organic slaughter stock, including continuous organic management starting no later than the last-third of gestation and no use of synthetic parasiticides (i.e. dewormers), including ivermectin, fenbendazole, or moxidectin:

 Signature Printed Name Date

LAY requires information because of the differences in requirements for organic dairy animals and organic slaughter stock. Animals that qualify as organic dairy animals may not qualify as organic slaughter stock. This form is intended to protect and preserve the integrity of the organic beef market.
